

You are invited to a Presentation

"Reactivating the Radford Arsenal" *1949 to 2012*

Presented by

Dennis Kitts

*Retired Manager, Training and Development, Radford Army
Ammunition Plant and fairly decent Evenspeed Operator*

Dennis Kitts

Radford Army Ammunition Plant 1949

39th Commander's Coin

Sponsored by

Floyd County Historical Society

Saturday, January 13th - 10am

Floyd Center for the Arts

Second Floor (Elevator is provided)

It has been said that: *"Many a brick home in Floyd County was built with Arsenal money."* Come see how the money was made for those homes built after WW II! Dennis worked at the Arsenal for 29 years and 4 months before retiring in May of 2016. Listen while he explains the reasons for reactivating the Radford Arsenal. Learn how the people at the Arsenal supported our Warfighters from the Korean War through the takeover by BAE Systems in 2012. Realize that the Arsenal has had many improvements in safety of operations, improved quality of materials for the Warfighters and how respect for the environment has improved over the decades. Leave with knowledge and understanding of how the Arsenal built at "Gunpowder Springs" changed, supported and improved the culture and quality of life in Southwest Virginia.
